

TECHNICAL DATA SHEET

SILICONE SURFACTANT L618

Product Description L618 is a polyalkyleneoxide modified polysiloxane surfactant used for flexible slabstock foam.

Key Features & Benefits

- Improve foam stability and breathability
- Wide processing latitude
- Reduce cracks in added filling formulation
- Wide tin processing latitude

Typical Properties

Property	Unit	Value
Appearance	-	viscous liquid
Viscosity at 25°C	cst	400~1100
Specific Gravity at 25°C	g/cm ³	1.03
Flash Point, Pensky-Martens Closed Cup	°C	>96

Handling Precautions The usual safety precautions when handling chemicals must be observed. These include the measure described in national and local health and safety regulations, thorough ventilation of the workplace, good skin care, and wearing of protective goggles. All safety information is provided in the Safety Data Sheet.

Usable Life and Storage This product has a shelf life of 4 years from the date of production when stored at ambient temperature in the original unopened containers.
